Dear Ms Fischer

Recommended paint material brands for Paint Repair of Rolls-Royce Motor Cars

The use of latest technologies in conjunction with high-quality paint materials and continuous extensive testing ensures the consistently high Rolls-Royce quality level is maintained in paint repair.

In order to maintain this high level of quality and thus also the value retention and corrosion protection, Rolls-Royce Motor Cars recommends the refinish paint material of the following brands.

BASF Glasurit® and

BASF R-M®

The use of paint material in accordance with this recommendation complies with Rolls-Royce warranty standards.

Yours faithfully

Jon Colbeth
