

R-M refinish products recognized by leading car manufacturers

R-M has long been the paint system of choice for discriminating restoration and collision repair centers demanding the ultimate in quality and customer satisfaction. That's why nearly every leading car manufacturer in the world, including Honda, choose our world-class finishes to complete their visions. Backed by BASF, the world's largest chemical company, R-M provides leading-edge technologies and more OEM certifications than any refinish brand on the market. We offer best-in-class color matching, with color formulations for all major manufacturers, along with unparalleled service and support, ensuring that vehicles are refinished to pre-accident condition. For top-of-the-line beauty that lasts, customer satisfaction and bottom line-boosting performance, choose what the world's leading automotive manufacturers choose. Choose R-M.

The complete R-M Refinish system is recognized for the safe & proper repair of Tesla vehicles.

Perfection made simple
