RFN444 Painters Small Damage Repair System™

Description

Learn the newly developed, highly efficient working method for a fast and affordable way to repair minor dings and scratches. Glasurit's new Small-Damage Repair System™ (SDRS) allows a shop to quickly and efficiently repair small damage. This two-day workshop is divided between classroom instruction and intense hands-on application training.

The cost of the course includes an SDRS kit that contains two SATA mini-sprayguns and a training manual. Painters who complete the SDRS course are certified to offer Glasurit's Lifetime Warranty. The SDRS provides added value for your customers and a real profit opportunity for you!

Performance Objectives

This program will enable participants to:

- Learn how to use Spot Blender for small repairs
- Properly prepare a vehicle for refinishing with the Glasurit Small-Damage Repair System
- Achieve undetectable repairs using the Glasurit Small-Damage Repair System

Target Audience

An existing Glasurit Certified Technician who desires to know how to use the Glasurit Small-Damage Repair System.

Locations

BASF North American Application & Training Center or Regional Training Facilities.
