Confirmation letter for the technical approval of Surventis Coatings, Glasurit®, AraClass® and ProClass® paint systems for Jaguar Land Rover Cross Car Line OEM and Aftermarket Service Paint Repairs, in combination with Glasurit® 100 Line and 90 Line basecoat systems

Jaguar Land Rover are pleased to confirm the technical approval of the paint materials for the Glasurit® AraClass® and ProClass® refinish products, **in combination with Glasurit® 100 Line and 90 Line basecoat systems**

The results are after rigorous, extensive technical evaluation of performance testing to meet the Jaguar Land Rover standard specification. According to test specification STJLR.51.5241 Revision 4 (Issue 12), the above tested brands and products referenced for Paint Systems 1 and 2 for metal substrates and Paint System 4 for plastic substrates fulfil the high-quality standards of Jaguar Land Rover for Cross Car Line OEM and Aftermarket Service Repairs. Please refer to JLR Materials Engineering report OCEMA-5637 for individual products included in the approved Paint Systems 1, 2 and 4.

It is the obligation of Surventis Automotive Refinish Coatings Europe/Global to comply with the relevant brands and products by market and legislation requirements. For more information, please contact your local Sales representative.

This letter does not include an evaluation regarding any legislation on chemicals, hazardous goods, hazardous substances or any other law on the production, import, use or distribution of the mixtures. It is the obligation of Surventis Automotive Refinish Coatings Europe/Global to comply with the relevant legal requirements.

Kind Regards
Christopher Curtis CChem MRSC, ATSC
Senior Engineer Core Cross Car Line Engineering Metals & Process Materials,
Jaguar Land Rover Materials Engineering, JLR Castle Bromwich, Birmingham B35 7RA.
